## Thank you for purchasing the atomi Wall Surge Protector

Power up to eight devices, neatly and efficiently, at once!  
With four smart USB charge ports and four AC outlets,  
you can charge personal devices and home appliances  
as you need!

This sleek surge protector also features a groove to keep  
loose-hanging USB cables out of the way.

## What's Inside

Wall Surge Protector

## Specifications

Current Tap Rating: 125V~60Hz 15A 1875W (Resistive) max

USB Input: 100~240V~50/60Hz 0.7A max

USB Output: 5V=2.4A (Each port)

Total USB Output Current: 4A max

Joule Rating: 400

1

Plug into any nearby outlet

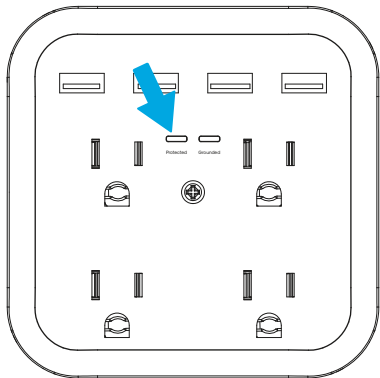

2

Plug in up to 8 devices

## Protected Indicator Light

When plugged in and lit up green, it means that the surge protection elements are working. If it goes out, it means the surge protector served its purpose during a damaging voltage spike, and should be replaced.

## Grounded Indicator Light

Illuminated, it lets you know that your plug has a grounded reference, which is needed for surge protection. Ground is the exit pathway for excess electrical current during a surge.

## Charging Various Devices with the Wall Surge Protector

Tablet

Mobile phone

Mp3 player

Camera

Sports camera

Gaming console

Connect up to eight devices!

## Safety Information

1. Read these instructions carefully for best use.
2. DO NOT use the Wall Surge Protector near water or expose it to rain or moisture.
3. DO NOT use the Wall Surge Protector near open flames, such as candles, heat sources, radiators and stoves.
4. Only clean the Wall Surge Protector with a dry cloth.
5. Caution: Risk of electric shock. Grounding continuity must be maintained.
6. For connection to a supply not in the U.S.A., use an attachment plug adapter of the proper configuration for the power outlet, if needed.
7. Please check prior use, if output voltage and current of the power supply is suitable for the product.
8. Children should be supervised to ensure that they do not play with the appliance.
